Education

Vellore Institute of Technology, Bhopal

2021 - 2025

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.22/10

Nana Saheb Bhise Jr. College

2019 - 2020

Senior Secondary (XII) - Science Stream

Percentage: 76.92%

Montfort School, Dharni

2017 - 2018

Secondary (X)

Percentage: 89.60%

Work Experience

Software Engineer Intern – Chainfly

June 2025 – July 2025

- Developed scalable RESTful APIs using **FastAPI** and **Python**, integrating seamlessly with a **React.js** frontend to enhance user experience
- Implemented unit testing using **pytest** and **unittest**, ensuring high code quality and reliability
- Collaborated in an agile environment, contributing to backend logic, database schema design, and frontend API integration
- Technologies Used: **FastAPI**, **Python**, **PostgreSQL**, **React.js**

Technical Skills

Languages: C++, Python, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: ReactJS, Node.js, Next.js, Redux, FastAPI, Flask, LangGraph, MediaPipe, OpenCV

Databases: PostgreSQL, MySQL, SQL Server, Redis

Tools & Technologies: REST APIs, JWT Authentication, Postman, Figma, Git, Speech Recognition

Concepts: Full-stack Development, AI/ML Integration, Real-time Processing, API Design

Projects

AI-Powered HCP Interaction Logger

June 2025 – July 2025

- Developed a full-stack, dual-interface CRM module for pharmaceutical representatives to log interactions with Healthcare Professionals (HCPs) via a traditional form or a conversational AI
- Engineered a Python backend agent using **FastAPI** and **LangGraph**, which leverages **Groq's Llama 3** LLM to parse natural language, extract key details, and automatically populate the frontend form
- Tech Stack:** React, Redux, Python, FastAPI, LangGraph, Groq (LLMs), PostgreSQL, SQLAlchemy

Event Platform

April 2025 – June 2025

- Developed a comprehensive full-stack web application for event discovery, management, and registration using modern technologies
- Implemented a scalable **FastAPI** backend with secure JWT authentication and a responsive **React** and **TypeScript** frontend for a seamless user experience
- Tech Stack:** React, TypeScript, Tailwind CSS, Python, FastAPI, MySQL, JWT

PDF Data Extractor

December 2024 – January 2025

- Engineered an automated web application to extract structured data like names, phone numbers, and addresses from PDF documents
- Developed a full-stack architecture with a **Node.js/Express** backend and a **Python** microservice using **pdfplumber** for core PDF processing
- Tech Stack:** React, Node.js, Express.js, Python, pdfplumber

Complaint Management System

July 2025 - July 2025

- Engineered a full-stack web application using Next.js and MongoDB to streamline complaint resolution.
- Implemented a secure, role-based authentication system with JWT and integrated a real-time email notification service using Nodemailer for status updates on new and updated complaints.
- Tech Stack:** Next.js, React, Node.js, MongoDB, Tailwind CSS, Nodemailer, JWT.

Certifications & Achievements

- HackerRank 5-star C++ Coder** - Demonstrated advanced programming proficiency
- Cloud Computing Certification** - NPTEL (National Programme on Technology Enhanced Learning)
- Programming Proficiency** - Certified in C++, HTML, CSS, and JavaScript
